

# Bedford Street Pocket Park: Delivering more open space in North Melbourne

City of Melbourne is transforming the existing green spaces in Bedford and Courtney streets into a new park that will include a playspace and activities area.

This project is supported by the Victorian Government through the Suburban Parks Program.

## What's been happening?

- Improving the layout of parking bays.
- Preparing the rain garden on the corner of Peel and Courtney streets.
- Installing bluestone kerbs.
- Irrigation and electrical services works.

## What's coming up?

- From late March until late April 2024, crews will be excavating and reconstructing the road on Capel Street.
- There will also be an increase in trucks on the eastern end of Bedford Street as crews finish off the bluestone kerbs and prepare the area for planting.

## While works are underway you can expect:

- Hours of work are 7am to 5pm Monday to Friday, with occasional weekend work required from 8am to 3pm.
- Some car park bays on Capel Street will be fenced off to complete the road reconstruction works.
- There may be an increase in traffic congestion, and traffic management will be in place to support people moving through the area.
- While excavation works may cause noise and dust, we'll put measures in place to reduce these impacts where possible.
- Car, pedestrian, bike riding and driveway access will be maintained at all times.

Excavation works

New bluestone kerbs
