

Elevation

Plan

Life buoys are to be located along the Yarra Rivers edge & within Docklands.

Placement of life buoys must be in accordance with Water Safety Victoria standards.

The life buoy casing is fabricated from spun aluminium and powder-coated Dulux 'Signal Red' 50735. The casing is fitted with an alarm and internally illuminated, power is supplied via cabling within a stainless steel mounting pole.

For fabrication & installation drawings, refer to City of Melbourne, City Design drawings; Project No: 903085 - Docklands Lifebuoy
