

Work to repair, conserve and restore the market's historic open-air sheds is underway.

We're investing more than \$25 million to restore the market's historic sheds, securing them as the unique backdrop of the market experience.

The on-site restoration works, including structural upgrades and installation of services, are authorised under Heritage Victoria Permit Number P31886.

This important conservation project will be staged to minimise disruption to traders and customers. Thanks for your patience.

Restoration works

May 2020

What's happening: May to December 2020

Stage 1 work area

Stage 1 restoration works include Sheds J to M (see map below highlighting works area) with works occurring Monday to Saturday. When the Victorian Government lifts restrictions on non-food market stalls, the upper market will operate across Sheds A to F to enable these important restoration works to continue.

Noise

Traders and customers in close proximity to the works area may experience some inconvenience. Works are expected to generate low to medium levels of noise. Work is being undertaken with COVID-19 health and safety measures in place and in accordance with WorkSafe and EPA guidelines.

Pedestrians

The works area will be fenced off for the duration of Stage 1. Signage on temporary fencing will assist with safe access around the area. Please take care and be mindful of changed conditions.
